CARE & DISCIPLESHP TRAINING

helping churches develop one another care in the local church

We designed our **Care & Discipleship Course (CDC)** to help churches develop one-another care in the life of their congregations. The material can be studied individually or as part of a group. Each level can be audited for free, or you can complete the required paperwork and payment to receive a certificate of completion from IBCD.

Association of Care & Discipleship Training

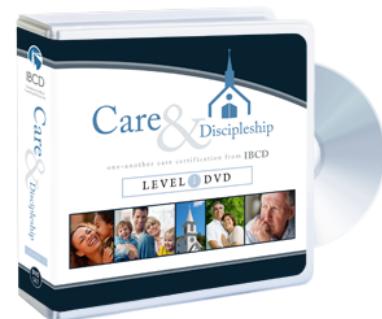

The CDC process also brings one along towards [ACBC Certification](#) if certification is desired. The end of the process involves our [Observation Videos](#), which can also be studied separately by anyone.

CDC Podcast

We're thrilled with how our training materials are being used all over the world, but there are also many topics that we would like to cover in more detail. That's why we've created the Care & Discipleship Podcast. It is our new forum to answer your questions and gain insights from other counselors in the biblical counseling world. We'd also love to hear your questions so we can address them in future episodes, so be sure to submit your ideas on our [podcast page](#).
